

Electrical Control Panels

We can supply, manufacture and install control panels for water treatment systems.

We can also manufacture soft starter control panels as tailor made according to your needs.

Main Power

- Incoming Power
 - o 480V 3 Phase through a Main Circuit Breaker
- Outgoing 480V Power
 - o 480V 3 Phase 5.0 HP Fan through a Motor Starter
 - o 480V 3 Phase 1.0 HP Pump through a Motor Starter

Control Power

- 120V and 24VDC
- 480V-120V Transformer
- 120V-24VDC Power Supply
- Outgoing 120V Power
- Chemical Pump through a Power Relay

Remote Control Interface

- Digital (Dry Contact) Inputs
- System Enable Contact
- Digital (Dry Contact) Outputs
- System Local-Off-Remote Selector in

Remote Contact

- Fan Running Contact
- Pump Running Contact
- Chemical Tank Low Contact
- Analog (4-20mA) Outputs
- pH signal from Door Mounted pH Meter (Signet) o ...
